INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/SE 2003/000045

Box No. I Basis of the report

1. With regard to the language, this report is based on the international application in the language in which it was filed, unless otherwise indicated under this item.

This report is based on a translation from the original language into the following language _____, which is the language of a translation furnished for the purposes of:

international search (under Rules 12.3 and 23.1(b))
 publication of the international application (under Rule 12.4)
 international preliminary examination (under Rules 55.2 and/or 55.3)

2. With regard to the elements of the international application, this report is based on (replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report):

the international application as originally filed/furnished

the description:

pages _____ as originally filed/furnished

pages* _____ received by this Authority on _____

pages* _____ received by this Authority on _____

the claims:

pages _____ as originally filed/furnished

pages* _____ as amended (together with any statement) under Article 19

pages* _____ received by this Authority on _____

pages* _____ received by this Authority on _____

the drawings:

pages _____ as originally filed/furnished

pages* _____ received by this Authority on _____

pages* _____ received by this Authority on _____

a sequence listing and/or any related table(s) – see Supplemental Box Relating to Sequence Listing.

3. The amendments have resulted in the cancellation of:

the description, pages _____

the claims, Nos. _____

the drawings, sheets/figs _____

the sequence listing (specify): _____

any table(s) related to the sequence listing (specify): _____

4. This report has been established as if (some of) the amendments annexed to this report and listed below had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).

the description, pages _____

the claims, Nos. _____

the drawings, sheets/figs _____

the sequence listing (specify): _____

any table(s) related to the sequence listing (specify): _____

* If item 4 applies, some or all of those sheets may be marked "superseded."

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/SE 2003/000045

Box No. III Non-establishment of opinion with regard to novelty, inventive step and industrial applicability

The questions whether the claimed invention appears to be novel, to involve an inventive step (to be non obvious), or to be industrially applicable have not been examined in respect of:

 the entire international application claims Nos. 27-29

because:

 the said international application, or the said claims Nos. 27-29

relate to the following subject matter which does not require an international preliminary examination (specify):

Claims 27-29 relate to a method for treatment of the human or animal body by therapy.

Thus, the International Preliminary Examination Authority is not required to draw up an examination for this claim (Rule 67.1 (iv)).

 the description, claims or drawings (*indicate particular elements below*) or said claims Nos. _____ are so unclear that no meaningful opinion could be formed (specify): the claims, or said claims Nos. _____ are so inadequately supported by the description that no meaningful opinion could be formed. no international search report has been established for said claims Nos. _____ the nucleotide and/or amino acid sequence listing does not comply with the standard provided for in Annex C of the Administrative Instructions in that:

the written form

has not been furnished

does not comply with the standard

the computer readable form

has not been furnished

does not comply with the standard

 the tables related to the nucleotide and/or amino acid sequence listing, if in computer readable form only, do not comply with the technical requirements provided for in the Annex C-bis of the Administrative Instructions. See Supplemental Box for further details.

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	<u>1-26</u>	YES
	Claims	_____	NO
Inventive step (IS)	Claims	<u>1-26</u>	YES
	Claims	_____	NO
Industrial applicability (IA)	Claims	<u>1-26</u>	YES
	Claims	_____	NO

2. Citations and explanations (Rule 70.7)

Cited documents

The closest prior art is defined by the following document, which is cited in the search report:

(D1) EP 0 872 262, A2

D1 describes a device and the use of the device for ultrasonic treatment of a patient. The device has a therapeutic as well as a diagnostic transducer. The therapeutic transducer or transducers will be controlled by the result from the diagnostic transducer. Also the temperature in the area to be treated is determined by the diagnostic transducer (See column 4, line 19-47; column 5, line 5-17; figures 1 and 4).

Statement of reasons

The device described in document D1 is the closest prior art. The claimed device determines the acoustic characteristics of the treated tissue and controls the therapeutic transducer there from. Such a device is neither known nor obvious for a person skilled in the art, with knowledge of D1, to construct.

Thus, the device claimed in claims 1-26 is new (N), comprises an inventive step (IS) and is industrially applicable (IA).
